Ottoman Instructions

First, assemble the stage panel:

1. With the panel either upside down or on it's side supported by one person, slide the legs into the 4 corners of the panel. Slide a stage pin through both the leg and corner post to secure. Slide the round rubber feet into the legs and also secure using a stage pin.
2. Turn the panel over and move to desired position.

Next, put the ottoman pieces on:

1. Lay the ottoman foam section onto the stage panel.
2. Lay the stretchy black cover over the ottoman foam and panel, making sure the corners are aligned.
3. Using two people if necessary, stretch the cover over the entire stage panel, pulling it all the way down over the legs. Make sure not to catch the cover on the little knobs or leg pins on the side of the panel.
